

Truganina College - School Council Report – September 2021

The New Parent Payment Policy was presented to School Council when members met on the 6th of September. The policy outlines how school councils can request financial contributions from parents. It also ensures that parent payment practices in schools are consistent, transparent and that all children at the College have access to the curriculum. Members of the Council provided feedback on how the College can communicate the Parent Payment policy to families. The Director of Teaching and Learning Excellence, Nicole O’ Brien, celebrated the students’ achievements in the 2021 NAPLAN Assessment. The College has achieved 10 out of the 12 targets in the School Strategic Plan. Christopher Pugh, Acting Principal, spoke about Wyndham Council’s request to trial the drop-off and pick-up bays along Brigalow Drive. More information about this will be presented to families shortly. The Council would like to thank families for their support in submitting a petition to improve traffic and parking around the College. The College Captains presented how students supported one another by recording motivational videos during remote and flexible learning.
