# 'I See, I Think, I Wonder' – Metacognition Strategy

Foundation student work sample

- This Foundation student used the 'See, Think, Wonder' strategy to understand the book and made connections between different types of books based on personal experiences.

I See What do you see?	I Think What do you think?	I wonder What does it make you wonder?
➢ I see long legs. ➢ I see small people looking up. ➢ I see two feet. ➢ I see animals. ➢ I see a giant. ➢ I see the title.	➢ I think they want to look at the giant. ➢ I think they want to be big like the other giant. ➢ I think the big person might step on them.	➢ I wonder if they will all stay away from the giant so he doesn't step on them. ➢ I wonder if that is a giant.
